Summary

As a Cyber Security student having knowledge in programming languages Python, C, HTML, CSS, R and SQL, and operating systems like Kali Linux and Windows. I also have knowledge using industry-standard cyber security tools like Burp Suite, Wireshark, Nmap, Metasploit, Splunk, and PE Studio. Additionally, I have developed skills in data analytics using Power BI and advanced MS Excel. I would like to work with cyber security organizations to save them from cyber threats. Seeking opportunities to leverage technical skills and hands-on experience in the field of cyber security.
